

BENNU AWARDS GOM AIRCRAFT CONTRACT TO RLC

Broussard, LA – September 15, 2014 – RLC, LLC (RLC) is proud to announce the award of a new, multiple aircraft contract to provide helicopter services supporting Bennu Oil and Gas (“Bennu”) Gulf of Mexico properties.

Dru Milke, President & CEO of RLC announced the award and stated, “We are extremely pleased that Bennu has selected RLC as their provider of choice for their Gulf of Mexico helicopter support.”

Bennu’s Vice President of Production Mickey Shaw stated; “Bennu Oil & Gas was impressed with RLC’s personnel, facilities, procedures and processes as well as safety record. We look forward to a long and beneficial relationship between our two companies.”

Milke went on to acknowledge “Execution of our plan for delivering safe, dependable service to E&P companies in the Gulf of Mexico is working! Safety of our passengers, our employees and the natural environment are paramount to this success”.

RLC Corporate Info

RLC is the largest privately held helicopter operator in the Gulf of Mexico with a fleet of over 60 aircraft and seven support facilities along the gulf coast that are focused on the support of shelf production and exploration activities.

Bennu Oil & Gas – Focused on the Gulf of Mexico:

Bennu was formed in September 2013 and closed the acquisition of key producing properties, infrastructure, and certain exploratory blocks in the Gulf of Mexico Deepwater and Shelf areas on November 1, 2013. In the near term, Bennu seeks to diversify and grow its existing portfolio of properties through partnering, exploitation, further development, and exploration.
